

Fuelhawk Equipment Ltd. is focused on bringing quality fueling and fluid transfer products to the mining and heavy equipment industry. We are the authorized distributor for Fast Fill Systems. We provide a complete product offering of fuel receivers, lubricant couplers, fueling nozzles & pressureless fill systems. Rest assured that Fuelhawk Equipment has you covered!

## Lubricant Couplers

## R100's / N100's

This newest iteration of our 100-series couplers have been validated to higher burst pressures, while still allowing for cross-compatibility with competitors products. Single body receiver construction allows for greater strength and durability while also removing leak points. Lanyards retain caps and plugs nearby, preventing loss and clogging from dirt. Featuring pull cords to improve ease of use, this new line also ensures that incorrect nozzle-receiver pairings are eliminated by keeping interlock possible only between colour-coded pairings.

**Receiver**

Receivers available with JIC Bulkhead Thread

- Max Operating Pressure: 500 PSI
- Nozzle Thread: 3/4" NPT
- Receiver Thread: 3/4" NPT
- Ball Latching Mechanism
- Flow Area: .421 Sq Inches
- Available in six colours

### Evac Tool ET190

- One way Evac tool acts as a master key to drain all receives in the 100-Series
- 1-1/4" NPT Thread
- Ball Latching Mechanism
