FUELHAWK EQUIPMENT LTD.
COMMITTED · QUALITY · SERVICE

Fuelhawk Equipment is focussed on bringing quality products to the mining, heavy equipment and frac industries. We specialize in custom lubrication systems for all types of frac machines. cementers, triplex pumps, quintiplex pumps, and sand-belt trailers are just some systems we have successfully implemented for the industry.

# *Automatic Lubricator Systems for the Frac Industry*

**Lubricator System for Cementer**

**Lubricator System for Triplex Pump**

**Lubricator System for Sandbelt Trailer**

Lubricators are available with on-board smart timers (G3 MAX) or they can be controlled by the FRAC unit on-bard PLC. Configurations are available for triplex, quintiplex, cementer and sand belt pumps and can be custom defined to suit any lubrication need.

## Scannable QR Code and Test Button

Included on the lubricator is a QR code which directs the operator to a troubleshooting guide. The test button is used to ensure the lubricator is operating properly prior to start-up.

## Customizeable Laser Etching

Laser etch replacement part numbers to to eliminate the need to search for the correct part numbers to order.

## MSP Series Progressive Lubricator Blocks

Offers time-tested, field proven dependability in the harshest environments. Flow can be monitored using a proximity switch and performance indicators so problems can be pinpointed.

FUELHAWK EQUIPMENT LTD.
COMMITTED · QUALITY · SERVICE

Fuelhawk Equipment understands that there is a no "one size fits all" solution. Fuelhawk custom designs every kit in house to fit any size with ease of operation and servicing in mind. The kits are made with a rugged Stainless Steel construction and is fitted to keep all the components protected within the bracket.

## *Automatic Lubricator Installed Systems*

**G3 Lubricator Install for a Triplex/Quintiplex Pump**

**G-Mini Lubricator Install for a Sand Belt Trailer**
