

Fuelhawk Equipment Ltd. is focused on bringing quality fueling and fluid transfer products to the mining and heavy equipment industry. We are the authorized distributor for Fast Fill Systems. We provide a complete product offering of fuel receivers, lubricant couplers, fueling nozzles & pressureless fill systems. Rest assured that Fuelhawk Equipment has you covered!

Check Valve Receivers

R150CV

The Check Valve Receiver allows fuel to flow in only one direction. It can be mounted directly or remote mounted to the tank. Once installed, receivers can be replaced without draining the tank. This environment-friendly product is a comfortable solution for any fueling configuration. It's definitely an investment that will add dollars to your bottom line for years to come.

- Eliminates expensive fuel spills
- Nickel Plated
- Solid Steel (more durable than aluminum)
- Fuel theft is minimized
- Max Operating Pressure: 75 PSI
- Changing the replacement receiver does not require draining the tank

Standard Fuel Receivers

R150S

Our standard diesel fuel receiver is made from solid steel and is nickel-plated to ensure a long service life. With careful attention to product design and a receiver cap, receivers will have a long service life free from slow leaks and fueling problems. Designed to accommodate flow rates up to 800 LPM (211 GPM), Fast fill Systems fuel receivers are completely compatible with all major manufacturers' diesel fuel nozzles. Our anodized poppets are color-coded which will save time in tracking information for installation, maintenance and spring rating.

- Available shut off options: 7, 9, 11 & 12 PSI.
- 2" Male NPT Threads
- Nickel Plated
- Solid Steel (more durable than aluminum)
- Plastics caps available
- Max Operating Pressure: 75 PSI
- 100% Compatible will all major fast fueling diesel nozzles

Receiver Tools

R150CVSW

This Check Valve Installation Wrench facilitates installation or removal of the R150CV. The open back design also allows it to be used with R150SW to install or remove the R150CVR

R150SW

The R150SW, 2-1/2" deep socket tool is used to install new and remove worn down or damaged receivers
