

CATERPILLAR 745 DIESEL/DEF/LUBE UNIT

- This versatile fuel, DEF, and lubrication unit offers complete mobile maintenance and can travel to those difficult to reach places.
- The diesel dispense cabinet features the pump start/stop button and includes high volume, medium volume and low volume reels. The high and medium volume reels are equipped with FloMAX FNBL nozzles while the low volume has a standard splash dispense nozzle.
- The Lube and DEF Dispense Cabinet features reels for 5 different oils, coolant, DEF (low and high volume), waste oil, 2 OGL, multi-purpose grease (high pressure and high volume) and compressed air.
- Titan Finch II displays shows the diesel and DEF fluid volume on hand and GPI meters for the oils/coolant.
- 3 cameras are installed to gain full visibility of the rear, left and right side
- The van is equipped with cold weather equipment including redundant heaters, louvers and connection for a frost fighter
